The Chartered Quality Institute

‘OUR VISION IS TO PLACE QUALITY
AT THE HEART OF EVERY ORGANISATION.’

We promote the quality management approach, based on planning, measurement and improvement, which delivers the following benefits for organisations:

- improved customer satisfaction
- reduced costs and improved profitability
- improvement and innovation
- identification and management risk
- corporate care and responsibility

We recognise that these business outcomes can only be delivered by competent quality professionals, CQI members, and in support of this the CQI provides the following services:

- promoting the benefits of the quality
- management approach to industry
- maintaining the Body of Quality Knowledge
- disseminating quality knowledge and resources
- providing qualifications and training
- assessing and recognising quality competence

Chartered Quality Professional

‘QUALITY IS EVERYONE’S BUSINESS.
BUT IT CAN’T BE LEFT TO JUST ANYONE.’

We agree wholeheartedly. But more than that, we believe that business and industry can only achieve a sustainable approach to quality if competent people are employed to deliver it.

Chartered Quality Professionals are characterised by their ability to apply the quality management approach and the associated tools and techniques. They ensure that their organisation continually improves its performance, identifies and manages risks and consistently satisfies its customers and stakeholders.

Chartered Quality Professionals have the competence and skills to develop appropriate solutions to quality and business improvement issues, using innovative approaches, and are variously engaged in technical and commercial leadership.

The CQI's Chartered Quality Professional (CQP) provides quality specialists with the same status as other chartered professionals, giving recognition to their unique skill set and establishing their value within industry. Ensuring that your professional competence is formally recognised by the CQI the foundation to your success.
